

Exercises: DOM Access

DOM Detective

Use DOM access methods to select

- Open up girldevelopit.com in Chrome or Firefox, and open up the console.
- Use DOM access methods to find the following parts of the page:
 - Every image on the page
 - The upper left-hand logo (that says GirlDevelopIt)
 - The logos of the media sources that featured GirlDevelopIt (lifeHacker, TED, etc., at the bottom of the page)
 - The big tagline in the middle (that says "Empowering women...")
 - All of the green colored city names (Baltimore, Buffalo, etc.)
 - The "CLASSES" text in the center area (underneath the Computer icon)
 - The donate link (in the top right menu)

See Solution

```
document.getElementsByTagName("img");
document.getElementById("logo");
document.getElementsByClassName("media");
document.getElementsByClassName("tagline")[0];
document.querySelectorAll("a.green"); document.querySelector(".blue
.topic"); document.querySelector("#donate a");
```
